

September 18, 2002

MEMORANDUM TO: William D. Travers
Executive Director for Operations

FROM: Samuel J. Collins, Director /RA/
Office of Nuclear Reactor Regulation

SUBJECT: SIGNIFICANCE DETERMINATION PROCESS (SDP) TASK GROUP

By memorandum dated August 6, 2002, you directed that I develop a plan to address the Differing Professional Opinion (DPO) panel recommendations and the draft Office of Inspector General (OIG) recommendations. You indicated that the plan shall address DPO Panel recommendation No. 1 for an overall objective review of the SDP, and that an overall review of the SDP will require establishing a Task Group. Attached is the tasking memorandum to the Chairperson, Victor McCree, Deputy Director, Division of Reactor Projects, Region II, which includes the Charter for the group.

The Task Group charter has been developed to define the objective, scope, expected product, schedule, proposed staffing and senior management interface of the Task Group. The Task Group has been requested to provide its observations, conclusions, and recommendations in the form of a written report which satisfies the attached charter. I have requested that the Task Group report the results of their review in November 2002. I request that you approve the plan for the Task Group so that they may begin their efforts.

Approved: Carl J. Paperiello, for /RA/ 9/18/02

Attachment: As stated
